## SYDNEY'S BEST DOG PARKS, WALKS & PLACES TO PLAY

*The full-colour guide to over 80 fantastic doggy destinations*

6-copy  
counter pack:  
9781921606465

One or more dogs are part of nearly 40% of Australian families, and several hundred thousand live in Sydney alone. Although the city is very well provided with parks, bushland, beaches and open spaces, a great deal of this—including all National Parks and virtually all beaches - is off-limits to our four-legged friends, even when leashed. Information on where and when dogs can be taken and walked is also notoriously (amongst dog-owners) time-consuming to gather, and so most Sydneysiders restrict their dog-walking and playing to a very few favourite local spots. Now for the first time, local author and dog-lover Catherine Proctor has gathered all that information into a single, compact book. At last, Sydney dog-owners can now choose from a wide variety of dog-friendly areas right across Sydney, and ensure that the family pet can be a part of even more family outings.

## SOMME 1916 *A Battlefield Companion*

Gerald Gliddon's classic survey of the Somme battlefield in 1916, first published in 1987 to great acclaim, has been greatly expanded and updated to include the latest research and analysis. Supported by a wide selection of archive photographs and drawing on the testimony of those who took part, this new edition covers both the famous battle sites, such as High Wood and Mametz Wood and lesser known villages on the outlying flanks. It includes a day-by-day account of the British build-up on the Somme and the ensuing struggle, British and German orders of battle and a full history of the cemeteries and memorials, both 'lost' and current, that sprang up in the years following the First World War. The author also provides thumbnail biographies of all the senior officers to fall, as well as the winners of the Victoria Cross and those who were 'shot at dawn'.

## MYTHS AND LEGENDS OF THE SECOND WORLD WAR

As with the Great War, the Second World War gave rise to a rich crop of legends, many of which persist in the public consciousness even today. Some are well known, like the Dunkirk story, which portrayed the disaster of 1940 as a victory. Others are more obscure. Weaving his narrative around a wide range of contemporary documentary sources, James Hayward presents an objective and rigorous analysis of the main myths, legends and popular falsehoods of the Second World War. The result is a new and refreshing perspective on the popular image of the Second World War.

**Author:** Hayward, James • **ISBN:** 9780752452371 • **RRP:** \$32.95
