**Crochet Impkins**  
Over a million possible combinations! Yes, really!*By Megan Lapp*

Enter the world of the reclusive yet mischievous Impkins! I'm sure you have seen them out of the corner of your eye from time to time, racing from hiding place to nook or cranny-odd little creatures of stitch and stuffing, of endless variety in form and manner. In these pages, you will not find a taxonomy of their features or a list of the names by which you might call them, you will find guidance on something far more important-the techniques and methods by which you might craft one of these little stitchlings of your very own.

It is a wonderful thing, I assure you, to bring an Impkin to life with hook and yarn, and herein you will find the detailed instructions necessary to craft one, with an endless array of options for ears, antennae, hats, wings, tails, scales, horns, hairstyles, clothing, and accessories. Each Impkin is unique, and only you can listen to find out what yours longs to be. Stitch by stitch, you'll cast a spell, until at last you have made a brand-new creature. Don't be surprised if it asks for a snazzy vest or a satchel to hold its treasures! Though hard to spot at first, when you see one Impkin you can be sure there are more around. Impkins are social little creatures; once you make one, it is sure to clamor for a multitude of friends from your hook!

## Flowers for Friends

### Casual, Seasonal Arranging for Gardeners

By *Julia Atkinson-Dunn*

This is a book about flower arranging from the perspective of a gardener. Harvesting from the garden means short, wonky stems, bruised petals, insects crawling out of blooms and the open invitation to claim a weed or vege as vase fodder. *Flowers for Friends* is both a reflection, and story of the seasons brought indoors by Julia Atkinson-Dunn when harvesting from her garden and foraging in Canterbury, New Zealand. Written in her signature casual tone (as seen in her first book *Petal Power*), Julia offers an accessible guide to picking, conditioning and arranging home-grown treasures, celebrating their quirks and encouraging unexpected combinations. Seasonal chapters profile arrangements she has made, detailing plants in season and inviting readers to play without the hunt for perfection, or restraint.
