Kiki Kicks

By Jane Yolen, Ariel Stemple, John Ledda

"I want to be strong for the right reasons." Kiki has watched her mama practice karate for a long time, and now she wants to learn too. She wants to become strong and steady like a mountain. The bullies at school are strong for the wrong reasons. They make Kiki feel small.

But today at her first karate lesson, everything changes. Award-winning author Jane Yolen joins forces with debut author Ariel Stemple in this picture book about reclaiming strength, confidence, and peace through martial arts.

This lyrical story of self-empowerment at a martial arts studio is woven around the poetic lines of Yolens well-known poem "Karate Kid," used by educators and librarians for decades. Backmatter includes personal notes from the authors about how this story came to be and how martial arts helped save Stemple who was bullied as a child.

What Makes You Bloom

Cultivating a Practice for Connecting with Your Divine Self

By Kevin Miguel Garcia, Jacqueline J. Lewis

Get ready to heal from your past, get real about the present, and imagine a delicious future by rebuilding a living practice that actually works for you. So many of us are leaving conservative faith traditions behind, rightly saying goodbye to toxic theology, bigotry, and harm. But in the process, we often lose our rhythm of gathering, prayer, and worship. We may even lose our sense of connection to God. And we think it's our fault.

What Makes You Bloom is a guide to creating your new spiritual practice after your life or faith has fallen apart. When going to church, praying, and reading your Bible just doesn't cut it or outright disturbs you, this book will show you how to cultivate new, meaningful spiritual practices--like stillness, presence, breath, and movement--that will help you overcome the pain of your past and root yourself in the present. Through stories, insights, and guided meditations, Garcia explains how the goal of every spiritual practice should be about the attainment of peace--about finding what truly makes you bloom.

Grieving Room

Making Space for All the Hard Things after Death and Loss

By Leanne Friesen

When we lose someone we love, we are forever changed. When our person dies, our grief needs room. People long to reduce the enormity of our grief. In *Grieving Room*, Friesen writes with vulnerability, wisdom, and somehow even wit about the stark and sacred lessons learned at deathbeds and funerals. When someone dies, we need room for imperfect goodbyes, she writes, and room for a changing faith. We need room for regret and room to rage at the world. Room for hard holidays and room in our schedules. In this poignant account of a sister's mourning and a pastor's journey, Friesen pushes back against a world that wants to minimize our sorrow and avoid our despair. She helps those of us walking with the grieving figure out what to say and what not to say, and she offers practical ways to create ample space for every emotion and experience. Reflection questions, practices, and prayers at the end of the book offer guidance and ideas for individuals and groups. In a world that wants to rush toward closure and healing, *Grieving Room* gives us permission to let loss linger.

Christians and War

A Brief History

By A. James Reimer

Religion, and specifically Christianity, has often been blatantly invoked to support or oppose war and violence of all kinds. Christians are deeply divided over whether and when such violence is justifiable. James Reimer offers a fair presentation of these controversial standpoints, including the classical Christian attitudes toward war: crusading or holy war, just war, and pacifism.

His thoughtful survey of Christian teachings and practices on issues of war, violence, and the state takes readers from classical Greco-Roman times to postmodernity. Arguing that the church's responses to war can only be understood through the church's changing relationship to culture, Reimer concludes with an analysis of the contemporary debate and proposes criteria for legitimate and illegitimate use of force by nation-states.

Through confronting the Christian church's history, which is complex and sometimes difficult to endure, Reimer encourages readers to think critically and come to hold their own position that promotes both peace and justice.

How to Think Theologically 4/e

By Howard W. Stone, James O. Duke

Decades of use and refinement have solidified the place of *How to Think Theologically* as the indispensable guide to helping students of theology realize their call to be theologians.

By focusing not on thinkers or thoughts, but on thinking, Stone and Duke induct readers into those habits of mind that lead to understanding all things--social, cultural, and personal--in relation to God.

The new edition includes Expansions of existing chapters, an annotated bibliography of recommended reading, an appendix of theological labels, an expanded glossary, key points highlighted in callouts throughout, updated case studies, discussion questions and more.

Both experienced teachers and beginning students will benefit from Stone and Dukes latest revision of their classic text.

Crucified

The Christian Invention of the Jewish Executioners of Jesus

By J. Christopher Edwards

Historians of early Christianity unanimously agree that Jesus was executed by Roman soldiers. This consensus extends to members of the general population who have seen a Jesus movie or an Easter play and remember Roman soldiers hammering the nails. However, for early Christians, the detail that Jesus was crucified by Roman soldiers under the direction of a Roman governor threatened their desire for a stable existence in the Roman world. Beginning with the writings found in the New Testament, early Christians sought to rewrite their history and shift the blame for Jesus's crucifixion away from Pilate and his soldiers and onto Jews. During the second century, a narrative of the crucifixion with Jewish executioners predominated. During the fourth century, this narrative functioned to encourage anti-Judaism within the newly established Christian empire.

Good Book

How White Evangelicals Save the Bible to Save Themselves

By Jill Hicks-Keeton

Good Book interrogates how white evangelical Christians in the US make the Bible the "Good Book." An inanimate object with a contested table of contents ripe for multiple meanings and uses, the Bible cannot be a moral agent on its own. People must make it so, as indeed they have. As prevailing social norms change, evangelical Christians confront intellectual and interpretive challenges as they quest to make an ancient book newly relevant and ever benevolent, especially for historically oppressed populations. While histories show us that white Christians in the US have frequently appealed to their Bibles in support of issues now judged to be on the wrong side of history, including racism, sexism, and colonialism, contemporary white evangelical figures have in recent years worked steadfastly to defend the Bible against charges of complicity in harm.

Unborn Bodies

Resurrection and Reproductive Agency

By Margaret D. Kamitsuka

The afterlife continues to influence Christian faith and is a concern during fragile moments of reproductive loss. However, a doctrine of resurrection that speaks to death in the womb has yet to be considered. Ignoring fetal death began early in Christian history. The church has struggled for settled meaning regarding issues of personhood in the womb and whether unbaptized infants are saved. Believers today deserve to know the basis for a Christian hope of heaven. They deserve a nontoxic eschatology that sustains an embodied sense of self, which is fractured by the experience of reproductive loss. They deserve to know whether assenting to the resurrection of the body--including unborn bodies--requires them to sacrifice their reproductive self-determination.

Walter Brueggemann's Prophetic Imagination

A Theological Biography

By *Conrad L. Kanagy*

The story behind Walter Brueggemann's theological imagination. In this theological biography of the most prolific Old Testament student of the twenty-first century, Conrad Kanagy portrays Walter Brueggemann within the historical and cultural landscape of his formation. Kanagy follows Walter from his childhood home in Blackburn, Missouri, to Elmhurst College, Eden Theological Seminary, and Union Theological Seminary. Kanagy introduces us to the teachers who most influenced Brueggemann's personal and theological development. We observe Walter Brueggemann's unflappable energy as he moves toward the publication of *The Prophetic Imagination*, which will land him on the theological map of biblical studies and the American church. This breakthrough will define the rest of Brueggemann's life as he pivots among the biblical text, classroom, church, and world.

Erotic Defiance

Womanism, Freedom, and Resistance

By *Courtney Bryant*

Considers the ethical and theological dimensions of Black womanhood and how divine energy manifests love. The West fears desire. It fears ecstasy. It fears flesh. It copes with its fears by deploying its intellectual, political, and religious instruments to regulate, discipline, and punish. Western fear of the erotic has led to its regimes of racial and gender hierarchies, institutions of repression, and dehumanization of large portions of the human family. In the face of anti-erotic hegemony, Black women have too often yielded to Western Christianity's anti-erotic culture, its misnaming of the erotic as evil, and its denial of the erotic's relationship to the divine. But they have also resisted. They have also defied. This book is rooted in that tradition of defiance.

Israel

A Christian Grammar

By *Paul J. Griffiths*

Israel: A Christian Grammar proposes an understanding of Israel for Christians. The book's central claim is that Israel properly includes both the synagogue and the church, which is the same as to say that Israel properly includes both Christians and Jews. This, the book proposes, makes better sense of twentieth- and twenty-first-century developments in Christian doctrine about the Jewish people than other, rival construals of the same matter: if Christians and Jews share a lineage, worship the same God, have the same purpose, and are each given an irrevocable promise by that God of the continuation of their condition as God's beloved community--then they share a form of life, and that form of life is Israel. Such an understanding requires addressing what separates church and synagogue (theologically, liturgically, halakhically), how the differences between them came about, and the condition and meaning of those differences now.

bell hooks' Spiritual Vision

Buddhist, Christian, and Feminist

By Nadra Nittle

When Black feminist and scholar bell hooks died in 2021, she was widely remembered for writing more than three dozen books across genres including memoir, poetry, theory, and criticism. However, it was her book *Ain't I a Woman*, in which hooks examines how Black American women have historically faced gender, class, and racial oppression, that catapulted her to prominence as a leading feminist thinker. Nadra Nittle makes it clear that hooks identified not only as a feminist but also as a Buddhist Christian. In *bell hooks' Spiritual Vision*, Nittle recounts how hooks kept her spiritual practice private for years, fearing there was no room to discuss her faith in the feminist movement or in the academy.

Befriending the North Wind

Children, Moral Agency, and the Good Death

By Robyn Boere

The death of a child horrifies. We recoil at its mention. Images of dead or dying children impose themselves on our attention in ways that challenge us to change. Yet the topic of dying children is studiously avoided. When we do take notice, we paint children as victims, innocent of both blame and agency, passive in the face of suffering. Children die secluded in homes and hospitals, allowing society to carry on as though it were not happening. *Befriending the North Wind* is about the moral lives of children and their agency in decisions about death. Our failure to be honest and open about the death of children hinders us from addressing their needs and confronting the sources of their suffering. This failure only adds to their suffering. Dying children often feel ignored, overlooked, and unable to exercise their agency to ameliorate their situation.

A Gospel for Workers

Cho Chi Song, Yeongdeungpo Urban Industrial Mission, and Minjung

By Seo Deok-Seok, Jione Havea

This book tells three overlapping stories: first, the life story of Rev. Cho Chi Song, a pioneer of urban and industrial missions, which served Korean society's working population; second, the Urban Industrial Mission (UIM) in Korea, which Cho Chi Song pioneered; and third, the story of how UIM provided the roots for Korean Minjung Theology. Owing to Cho Chi Song, UIM became the birthplace of missions for the working population and an enduring haven of a worker's right to life and dignity. Cho shared both tears and laughter with workers. At times moved by righteous anger, he worked to bring "healing to a sick society."

Enfleshing Freedom 2/e

Body, Race, and Being

By *M. Shawn Copeland*

Black women's experience and what it means to be human. The achievement of our humanity comes about only through immersion in concrete, visceral, embodied relational experience, yet for many human beings, that achievement is stamped by the struggle against oppression in history, society, and religion. In this incisive and important work, distinguished theologian M. Shawn Copeland demonstrates with rare insight and conviction how Black women's historical experience and oppression cast a completely different light on our theological ideas about being human. Copeland argues that race, embodiment, and relations of power reframe not only theological anthropology but also our notions of discipleship, church, Eucharist, and Christ. *Enfleshing Freedom* is a work of deep moral seriousness, rigorous speculative skill, and sharp theological reasoning.

Faithful Teaching

Lutherans and Catholics in Dialogue XII

By *Lowell G. Almen, Denis J. Madden*

For more than fifty years, Lutherans and Catholics in the United States have listened to the word of God in dialogue with one another. The conversation has borne great fruit in overcoming past misunderstandings, prejudices, and even at times enmity between the two communions. It has fostered mutual appreciation, respect, and significant agreement on what were once thought to be irreconcilable doctrinal differences. But as major changes in church and society accelerate, the process by which communions make judgments and teach them to the faithful is of vital importance. *Faithful Teaching* is the twelfth dialogue of the U.S. Lutheran-Catholic Dialogue. It seeks greater mutual understanding of the two communions' respective processes of faithful teaching.

Vast as the Sea

Hebrew Poetry and the Human Condition

By *Samuel Hildebrandt*

The poetry, imagery, speeches, and emotions readers encounter in texts like Job, Psalms, and Jeremiah are abundant resources for articulating the painful experiences of the human condition. These compositions are sacred scripts that normalize and articulate the anxiety, loneliness, and despair that mark life on earth. In *Vast as the Sea*, Samuel Hildebrandt presents an accessible, exegetical study of these scripts that demonstrates how the Bible's ancient poetry speaks today. In conversation with current psychological research, Hildebrandt's poetic analyses invite readers to discover the personal and expressive contours of the biblical text, as well as its liberating and healing potential.

The Mystified Letter

How Medieval Theology Can Reenchant the Practice of Reading

By *Craig Tichelkamp*

Reading has become a problem--not just of attention, comprehension, or growing rates of illiteracy, but of politics, society, and religion. The questions of how and what to read are not just matters of taste. Answers are often indicative of one's entire view of culture, church, and the cosmos, as well as the impasses of religion, reason, and moral vision. As a result, reading has become divisive and uninspiring. Reading has become a drag. *The Mystified Letter* offers a hopeful alternative to this malaise--a theology of reading centered on mystical encounter. It retrieves medieval Christian reading culture to build a constructive case for a mystical theology of literature.

Experiencing Gospel

The History and Creativity of Martin Luther's 1534 Bible Project

By *Gordon A. Jensen, Robert Kolb*

Gordon Jensen's careful analysis of the 1534 Luther Bible uncovers the central truth of Martin Luther's prodigious translation efforts: Luther's commitment to producing this physical object was founded in his desire that receiving the Gospel might become a lived experience. Contrary to popular perception, Luther's works were not the first, the freshest, or even the most user-friendly German biblical translations of the time. Rather, their power came in Luther's utter commitment to creatively sharing the Word "so that people would encounter Christ within the pages of scripture and through scripture, thus driving Christ into their hearts and lives." Jensen locates proof of Luther's commitment in his deliberate decision to highlight seven specific words and phrases in the text of his 1534 translation.

Obstacles to Stillness

Thoughts, Hindrances, and Self-Surrender in Evagrius and the Buddha

By *Shodhin K. Geiman*

In the fourth century, the Christian monk Evagrius of Pontus identified a group of "obstructive thoughts" that hindered individuals from stilling their minds in communion with God. Ranging from sadness and anger to gluttony and lust, Evagrius' list would later form the basis for the Church's "seven deadly sins." Notably, early Buddhist scriptures described a similar set of mental "hindrances" to liberating insight, which included problems such as sloth and sensory desire. Christian and Buddhist traditions thus pinpointed similar obstacles for the practitioner who is pursuing contemplative practice. In *Obstacles to Stillness*, Shodhin Geiman provides a comparison of these Christian and Buddhist approaches to identifying, and overcoming, hindrances to religious contemplation.

Picking Up the Pieces

Leadership after Empire

By Kathleen McShane, Elan Babchuck

While the exodus dates back thousands of years, religious organizations continue to operate in the shadows of the pyramids--the symbol of empire--that the Israelites once toiled to build. The reason is understandable, given that pyramids are remarkably stable structures. Pyramids lend an orderliness to organizational relationships in our churches and synagogues. However, Kathleen McShane and Elan Babchuck argue that such leadership models reflect syncretic cultural traditions more than our theological convictions. These patterns elevate the structure of the pyramid above the people. They reward the consolidation of power at the top at the expense of the freedom of those below. They constrain creativity and elevate efficiency at the cost of human dignity. In *Picking Up the Pieces*, McShane and Babchuck argue that these leadership models are not the way of the gospel. Therefore, today's religious leaders need a more generous model.

The Emancipation of God

Postmarks on Cultural Prophecy

By Walter Brueggemann, Conrad L. Kanagy

Understanding the gospel as emancipation has been central to Walter Brueggemann's biblical interpretation. This book illustrates the theme's centrality, addressing the emancipation of God from our attempts to control, the emancipation of the church to be the people of an emancipated God, and the emancipation of the gospel to be a cultural prophecy. This volume divides into three parts: "*The Emancipation of God*," "The Emancipation of the Church," and "The Emancipation of the Neighborhood." What the three parts hold in common is the kingdom of God.

Chaplaincy and the Soul of Health and Social Care

Fostering Spiritual Wellbeing in Emerging Paradigms of Care

By Ewan Kelly, John Swinton, Tim Bennison, Don Bryant, Eva Buelens

Gathering together thoughts and visions of experienced practitioners, academics, educators and strategic leaders from around the world, this edited volume sheds light on the nature of chaplaincy and its role and significance within ever-changing contemporary healthcare systems. A wide range of issues central to spiritual care delivery are covered, including reflections on what it feels like to be cared for by a chaplain through illness.

The focus throughout is that chaplaincy should not only be guidance for people in distress, as a form of crisis intervention, but is rather about helping to promote wellbeing and enhance people's quality of life. This book seeks to show that true health and wellbeing can only be found through a holistic approach and shows how chaplaincy can bring this to the table. This book is for anyone who recognises the centrality of spirituality for wellbeing and wishes to see what that might look like in practice.

Spiritual Care in Common Terms

How Chaplains Can Effectively Describe the Spiritual Needs of Patients in Medical Records

By Gordon J. Hilsman, James H. Gunn

Encouraging a broad, compassionate, humanistic approach to spirituality, this book shows how patients' spiritual needs can be communicated well within interdisciplinary teams, leading to better patient wellbeing.

This book describes the art of charting patients' spiritual perspectives in an open way that will help physicians and nurses to better direct medical care. It includes practical information on how to distil spiritual needs into pragmatic language, helping to demystify spiritual experience.

Drawing on his extensive practical experience, the author also suggests key points to emphasise that will enrich chart notes for medical records, including brief, relative narratives, trusting one's own impressions, reflecting holistically on the patient's life, patient attitudes towards treatment and recovery, and describing families' opinions on the health care situation of their loved one. The book shows healthcare professionals of all disciplines how to engage in a shared responsibility for the spiritual care of their patients.

Spiritual Dimension of Ageing 2/e

By Elizabeth MacKinlay, Richard Burns

What does it mean to grow old? What makes later life meaningful? What gives a frail and isolated or institutionalised older person their sense of wholeness and self? This substantially updated new edition of Elizabeth MacKinlay's seminal text presents the latest theory and research to explore these questions in depth, pointing the way towards new ways of thinking about and engaging with the spirituality of ageing. Encompassing the findings of a new research study on baby boomer spirituality, the book presents a wider and more comprehensive view of ageing and spirituality, concluding that spirituality for the baby boomer generation is every bit as important as for the cohorts before them, but also fundamentally different, with fewer being practicing members of a religious faith.

**Author Bio:**

Napoleon Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age 13 as a "mountain reporter" for small town newspapers and went on to become America's most beloved motivational author. Hill passed away in November 1970 after a long and successful career writing, teaching, and lecturing about the principles of success. Dr. Hill's work stands as a monument to individual achievement and is the cornerstone of modern motivation. His book, *Think and Grow Rich*, is the all-time bestseller in the field. Hill established the Foundation as a nonprofit educational institution whose mission is to perpetuate his philosophy of leadership, self-motivation, and individual achievement.

Think and Grow Rich: In 10 Minutes a Day**By Napoleon Hill**

Now you can quickly and effectively study and put into practice the greatest personal development program of all time. In only ten minutes a day, you can begin to implement the success principles that have made more millionaires and top influencers than any other achievement philosophy.

Fame? Fortune? Impactful service? More meaningful relationships? You can have anything that you want in life when you discover the secret contained in Napoleon Hill's *Think and Grow Rich*. Originally published in 1937, *Think and Grow Rich* helped end the Great Depression with its 13 steps to amass riches. It holds the keys to financial independence, harmonious relationships, power, happiness, fulfillment, and peace of mind.

All forms of wealth can be yours if you are willing to pay the price...and that is, to THINK--to enlarge your mind, take control of your thoughts, and leverage the power of the vast mental resources available to you in order to translate your greatest desires into their material equivalent.

As Hill said, "There is no point in having such a great potential for achievement unless you do something to convert it into an actuality." *Think and Grow Rich in Ten Minutes a Day* extracts the key principles, instructions, and stories from Hill's original, unedited masterpiece and provides updated, relevant examples--in modernized, easily accessible language--so that all readers, regardless of how busy they are, can benefit from the timeless wisdom found in Hill's book.

Action items added to the original text will help readers expertly apply each chapter's lessons. Your master-key to success is already in your hands! Let this book show you how to use it efficiently and effectively to unlock the storehouses of riches that are within your reach.

Harness the power of thought to distinguish yourself like you never imagined possible...for "anything the mind can believe, it can achieve!"

The Power of Ambition

Awakening the Powerful Force Within You

By *Jim Rohn*

From America's leading authority on success comes a book that will help you redefine ambition so that you can use your drive to serve others while creating the fulfilling life you desire. In *The Power of Ambition*, Jim Rohn debunks the myths and misconceptions about ambition that cause it to hinder, rather than fuel, personal achievement. Genuine ambition is not a self-serving impulse. Quite the opposite--it empowers us to better our lives and the lives of those around us. Rohn details six revolutionary strategies for cultivating legitimate ambition and harnessing it to transform what is going on within and around you. "Motivation can come from anywhere, but ambition is only drawn from within. Access your inner drive to achieve all the things you've been working for." --Jim Rohn
