HARD - Rugby League In The 70's

By Graeme Hughes, Tony Loxley, Peter Peters

The decade of the 70s in rugby league is today acknowledged as one of the toughest eras of the game - tough, hardened men playing a game that never let up for eighty solid minutes.

Most who played rugby league in first grade within the NSWRL competition worked five days a week and did their best to get to training on time three times a week, a scenario now long lost in the game.

But that's how it was: the time spend playing the game was HARD to say the least - at its worst, it was brutal beyond all comprehension.

Canterbury Bankstown Bulldogs rugby league great Graeme Hughes, who played throughout this era, along with Tony Loxley, Will Evans and Tony Adams, have accumulated former players memories, anecdotes and mountains of images and memorabilia that tells the tale of the 70s in rugby league exactly as it was.

The Russian FSB

A Concise History of the Federal Security Service

By **Kevin P. Riehle**

An introduction to Putin’s formidable intelligence and security organization.

Since its founding in 1995, the FSB, Russia’s Federal Security Service, has regained most of the domestic security functions of the Soviet-era KGB.

Under Vladimir Putin, who served as FSB director just before becoming president, the agency has grown to be one of the most powerful and favoured organizations in Russia.

The FSB not only conducts internal security but also has primacy in intelligence operations in former Soviet states.

Their activities include anti-dissident operations at home and abroad, counterintelligence, counterterrorism, criminal investigations of crimes against the state, and guarding Russia’s borders.

In *The Russian FSB*, Kevin P. Riehle provides a brief history of the FSB’s origins, placed within the context of Russian history, the government’s power structure, and Russia’s wider culture.

He describes how the FSB’s mindset and priorities show continuities from the tsarist regimes and the Soviet era.

The book’s chapters analyse origins, organizational structure, missions, leaders, international partners, and cultural representations such as the FSB in film and television.

Based on both English and Russian sources, this book is a well-researched introduction to understanding the FSB and its central role in Putin’s Russia.

Author Bio:

Kevin P. Riehle is lecturer in intelligence and security studies at Brunel University London. He also spent over 30 years in the US government as a counterintelligence analyst. He is the author of two previous books, including *Soviet Defectors: Revelations of Renegade Intelligence Officers, 1924-1954* (2020).

Tinseltown Gangsters
The Rise and Decline of the Mob in Hollywood

By Jeffrey Sussman

Among the many rackets the mob pursued, controlling the movie industry in Hollywood was one of the longest lasting, starting with Ben "Bugsy" Siegel paving the way for other mobsters like Willie Bioff and Mickey Cohen.

Like sharks to blood in the water, the mob arrived in Hollywood greedy and ready to tear away huge chunks of cash.

Opportunistic mobsters saw labor unions as the means for muscling into the movie industry and extorting millions of dollars from studio bosses.

Control the unions to which projectionists, art directors, cinematographers, electricians, scene designers, stagehands, extras belong, and you control the whole industry.

Painting colorful portraits of numerous mobsters, producers, actors, and directors, *Tinseltown Gangsters* tells the gripping, fast-paced, true story of corruption and greed in Hollywood throughout much of the twentieth century.

Australia's Looming Energy Crisis

Can We Keep the Lights On?

By Alan G. Lawrenson

Key Sales Points:

- * It is the comprehensive critical examination of the Australian energy market.
- * It examines Australia's vulnerability to power shortages in the Governments headlong rush into renewables.
- * No other book covers this subject more thoroughly.
- * The nuclear power options are fully examined.
- * Finally, a plan is outlined as to how we can keep the lights on in Australia.

The book is a detailed analysis of *Australia's looming energy crisis*. Over 24 chapters the book examines all energy sources in Australia including coal, gas, hydro and pumped hydro, solar and onshore and offshore wind as well as long term energy storage.

It reviews in detail the critical minerals that Australia needs to mine and process locally so that these value-added materials can find their way into the various battery technologies that will dominate in the energy transition process.

The book also examines the Electric Vehicle market and the battery technologies that will dominate in the future. The hydrogen economy and the use of hydrogen as an energy source to produce green steel and in other hard to abate applications are discussed.

The book includes six chapters on the nuclear energy option available to Australia. Numerous shortcomings in Australia's energy transition are spelt out and different solutions are hypothesized. A chapter examines.

Can We Keep the Lights On, on a state-by-state basis. The book has been prepared after accessing data from more than 200 local and international reports on the various elements of the race to Net Zero by 2050.

Winning the War for Talent

How to attract and retain top performers

By Richard Triggs

The ultimate success of any organisation comes down to its ability to consistently hire the best talent and to retain that talent. Richard Triggs, one of Australia's top executive search specialists, has provided in this book a step-by-step, proven methodology that any business can implement, from start-ups and small, entrepreneurial companies, through to market-leading multi-nationals. You will learn how to develop a comprehensive brief to ensure you are attracting people who have "done it before, done it well, and are motivated to do it again".

Through incorporating some interesting Eastern philosophy, you'll learn how often it is people's subconscious patterns of behaviour that influence their ability to perform, and as a leader what you can do about this. Richard's direct, thought-provoking, and challenging style will leave the reader feeling excited and empowered. Now leaders can with confidence know they will truly be able to reach their full potential personally, and as a business, and gain a true competitive advantage, through their people.

Deming's Journey to Profound Knowledge
How Deming Helped Win a War, Altered the Face of Industry, and Holds the Key to Our Future

By John Willis, Derek Lewis

A thoroughly entertaining and educational look at Deming, a man whose insights are fundamental to modern software development. Deming, an American engineer, and statistician, is widely recognized for his contributions to the field of quality management. But his teachings go beyond quality management; they influence not only how we work today, but also how we can continue to succeed in the future. Part business history, part biography, part journey into deep business sense, bestselling author John Willis captures the full picture of Deming's life and influence.

Most importantly, Willis reveals the experiences that led to Deming's greatest discovery: the System of Profound Knowledge, a collection of fundamental truths that show how any system or process can be transformed into something greater. From the real-life Rosie the Riveter to a hacker writing US cybersecurity law, Deming's ingenuity and system of thinking changed how we think in the modern world. This book shows how we can take that influence and continue to apply it our own future.

Why Can't I Eat This?

Living with food intolerances without losing out on flavour

By Julie-Ann Wrightson

The expression "you are what you eat" has a longstanding history. It revolves around the notion that an individual's nutritional choices significantly impact their health and overall well-being, either positively or negatively. Distinguishing between food intolerances and food allergies is crucial. While lactose and gluten intolerance are widely recognized, mentioning other types such as salicylates and glutamate often elicits confusion. However, there exists a significant distinction, primarily related to two essential systems in the human body—the enteric nervous system (digestive system) and the immune system.

Food intolerance complicates modern dietary habits by mimicking various health issues, often leading to inaccurate diagnoses. Continued exposure to triggering foods or food groups intensifies the body's adverse reactions. Managing food intolerance involves reducing exposure to the specific chemicals causing the reactions, allowing nerve endings to settle and return to their normal state. Over time, this approach may even reduce sensitivities to the point where they no longer recur.

ACT for Burnout

Recharge, Reconnect, and Transform Burnout with Acceptance and Commitment Therapy

By Debbie Sorensen

Key Sales Points:

*A self-help book using ACT for adults experiencing burnout.

"I know what it's like to care deeply about my work and yet feel utterly exhausted by it."

Burnout is more widespread than ever before, and it's time to do something about it. Rooted in Acceptance and Commitment Therapy (ACT), this book delves into the systemic, cultural, and economic contexts that contribute to burnout, and gives you the tools to exit the cycle.

Exercises and reflection questions help you reconnect with your values to find what's important and disentangle yourself from unhelpful thought patterns. By engaging with your emotions rather than avoiding or suppressing them, ACT allows you to respond more effectively and become re-engaged in your own life again. This book will show you how to move out of the burnout cycle, reconnect with meaningful aspects of your work, and make changes that last.

What Makes You Bloom
Cultivating a Practice for Connecting with Your Divine Self

By Kevin Miguel Garcia

Get ready to heal from your past, get real about the present, and imagine a delicious future by rebuilding a living practice that works for you. So many of us are leaving conservative faith traditions behind, rightly saying goodbye to toxic theology, bigotry, and harm.

What Makes You Bloom is a guide to creating your new spiritual practice after your life or faith has fallen apart. When going to church, praying, and reading your Bible just doesn't cut it or outright disturbs you, this book will show you how to cultivate new, meaningful spiritual practices--like stillness, presence, breath, and movement--that will help you overcome the pain of your past and root yourself in the present.

Through stories, insights, and guided meditations, Garcia explains how the goal of every spiritual practice should be about the attainment of peace--about finding what truly makes you bloom. Along the way, you will discover that the smallest changes in your life can bring about the biggest transformations, and that a feeling of bliss is only a few breaths away.

Winter Grief, Summer Grace
Returning to Life after a Loved One Dies

By James E. Miller

Grieving the death of a loved one is an experience with many seasons and stages. *Winter Grief, Summer Grace* helps readers navigate the phases of emotion through the four seasons of the year: autumn, winter, spring, and summer.

With comforting quotes, poetry, and suggestions for each season, author James E. Miller provides gentle guidance and comfort for those who mourn, with the assurance that God walks alongside them.

Readers may start at the beginning of the book, or with whatever season they find themselves in or relate to most.

No matter what page of this book they open to, those walking the path of grief will find comfort and encouragement there.

"This book is a gift for those who grieve. One page affirms feelings of sadness, other whispers words of wisdom, while others speak of hope and the endurance of love." --Fran Tilton Shelton, author of The Spirituality of Grief and founder of Faith and Grief.

You Are My Happy Ending
Schitt's Creek and the Legacy of Queer Television

By Emily Garside

From the show's modest beginnings to its massive Emmy sweep, *You're My Happy Ending* tells the story of how Schitt's Creek became the surprise hit that changed the way we think about LGBTQ relationships.

Cultural analyst Emily Garside shows how this series fused classic romcom and sitcom tropes to create a world with a queer love story at its core, starting with Daniel Levy, the co-creator who plays David.

Most importantly, Garside delves into the references to queer icons and culture-from Cabaret to drag. How did this supposedly light comedy embrace an activist perspective? And how does it use (and subvert) its romantic-comedy genre in order to make that activism even more powerful?

Combining a fan's affection with a scholar's insight, Garside explains how this "little show that could" is the product of a long history of queer activism, breaking down barriers and marking a turning point in future representation of LGBTQ stories.

Small Hours
The Long Night of John Martyn

By Graeme Thomson

Did any musician in the Seventies fly so free as John Martyn did on Bless the Weather, Solid Air, Inside Out and One World? Did any fall so far?

Small Hours is an intimate, unflinching biography of one of the great maverick artists. Though Martyn never had a hit single, his extraordinary voice, innovative guitar playing, and profoundly soulful songs secured his status as a much-admired pioneer.

Covered by Eric Clapton, revered by Lee Scratch Perry, produced by Phil Collins, Martyn influenced several generations of musicians, but beneath the songs lay a complicated and volatile personality.

He lived his life the same way he made music: improvising as he went; scattering brilliance, beauty, rage, and destruction in his wake.

Drawing on almost 100 new interviews, *Small Hours* is a raw and utterly gripping account of sixty years of daredevil creativity, soaring highs and sometimes unconscionable lows.

James Clyne is a keen walker and climber and has spent much time exploring the wild areas of Victoria, Tasmania, and New Zealand. Wildwalks is a small team of professional bushwalkers dedicated to making bushwalking more accessible and safer for our community.

Taiwan 101

Studying, Working, and Traveling in Today's Taiwan

By *Matthew B. Christensen, Henrietta Yang Ph.D.*

Taiwan has always been an attractive place to study and work. In fact, long before Mainland China became an option for Westerners, Taiwan was the place to study Chinese and work in a Mandarin Chinese speaking environment. As the People's Republic of China (P.R.C.) gained economic and political strength in the world, Westerners naturally gravitated toward this new market. Language programs and jobs for Westerners flourished. In the past decade there has been a renewed interest in Taiwan. This is undoubtedly due to a dramatic increase in cost of living in the P.R.C., increasing government regulation and scrutiny of foreigners, the increased political tension between China and the West, and generally the increasing difficulty doing business and studying in China in a free and fair way.

Cincinnati Red and Dodger Blue

Baseball's Greatest Forgotten Rivalry

By *Tom Van Riper*

Call it the forgotten rivalry. The Cincinnati Reds and the Los Angeles Dodgers may not share geographical boundaries, and today they don't even play in the same division, but for a period in the 1970s Dodgers vs. Reds was the best rivalry in Major League Baseball. They boasted the biggest names of the game--Johnny Bench, Steve Garvey, Pete Rose, Don Sutton, and Ron Cey, to name a few--and appeared in the World Series seven out of nine years. In *Cincinnati Red and Dodger Blue: Baseball's Greatest Forgotten Rivalry*, Tom Van Riper provides a fresh look at these two powerhouse teams and the circumstances that made them so pivotal. Van Riper delves into the players, managers, executives, and broadcasters from the rivalry whose impact on baseball continued beyond the 1970s.

Mind Game

An Inside Look at the Mental Health Playbook of Elite Athletes

By *Julie Kliegman*

In growing numbers, athletes are speaking up about their struggles with mental illness--including high-profile stars such as Michael Phelps, Kevin Love, Simone Biles, and Naomi Osaka. More disclosures are surely on the way, as athletes recognize that their openness can help others and inspire those around them. In *Mind Game: An Inside Look at the Mental Health Playbook of Elite Athletes*, Julie Kliegman offers insight into how elite athletes navigate mental performance and mental illness--and what non-athletes can learn from them. She explores the recent mental health movement in sports, the history and practice of sport psychology, the stereotypes and stigmas that lead athletes to keep their troubles to themselves, and the ways in which injury and retirement can throw wrenches in their mental states.

These Boots

By *AJ Dunne*

What secrets do you hide? Mine have been tucked safely into my well-worn and well-loved boots that have travelled with me, until now. I have whispered, screamed, laughed, cried, and confided to no one other than my boots-the keeper of my secret life, joys, sorrows, successes, pain, and torment. The story they would spin, you would never believe in a million years. A silent, relentless, exhausting battle of survival, but oh...how I triumphed. Just like my boots, I was resilient and epitomised the saying, "Never judge a person until you've walked in their boots." Dust off your boots and walk with me for a bit. We're going on the ride of your life to kick some ass-the cowboy way, with spirit and courage.

Eleanor Among the Saints

By *Rachel Mann*

In her second collection, Mann wrestles with the questions and possibilities raised when trans identity, faith, and the limits of myth and language intersect and are tested. *Eleanor Among the Saints* is a study in the queer joy found in counter-factuals and fantasy, shaped through the prism of the disputed story of Eleanor Rykener, a medieval trans woman, seamstress, and sex worker.

The East Coasters

The Early Pioneering History of The East Coast of Tasmania

By Lois Nyman, Maureen Martin Ferris

The major standard history of the first wave of settlers who arrived in Tasmania's East Coast between 1821 and 1831 and who developed the wide area. First published in 1990 but long unavailable, it follows with humour and historical authenticity the pioneering struggles of the first settlers, their interaction with each other, their encounters with Aborigines and bushrangers, and the family histories of the leading settlers.

Shark

In Peril in the Sea

By David Owen

A superlative study of our planet's dominant predator for millions of years. A major and fully indexed contribution to the preservation of this amazing creature, now much threatened by human activity - with losses from overfishing, pollution, and the destruction of their habitat. Although scientific knowledge of sharks is increasing rapidly, the author shows that there is still much to learn about these complex and elusive animals. For many species it may already be too late. The book overturns negative and damaging perceptions of sharks. Thoroughly researched, it is written in clear jargon-free language and informs the reader of everything necessary to know about these sophisticated guardians of our oceans.

The Monster Specimen

A Veritable Wall of Gold 5 billion Years in the Making 150 Years of Discovery

By *Malcolm Drinkwater*

The following aims to commemorate the date for discovery of the World's largest single mass of Gold at Hill End on 19th October 1872. To be precise the 150th or sesquicentenary for the unearthing of this monumental find that since or before has had no rival. The October celebration seemed to be a natural flow on event from the one I organised and in 1985. John Holtermann and his brothers also attended this 'Holtermann Centenary Festival held over Easter 1985 recognising 100 years since Holtermann's death on 29th April 1985. The Beyers and Holtermann Specimen as it is correctly known was 3,000 ounces of gold in one lump. There is much more yet untold information about its discovery and the domino effect created to benefit Australia.

World of War

A History of American Warfare from Jamestown to the War on Terror

By *William Nester*

World of War is an epic journey through America's array of wars for diverse reasons with diverse results over the course of its existence. It reveals the crucial effects of brilliant, mediocre, and dismal military and civilian leaders; the dynamic among America's expanding economic power, changing technologies, and the types and settings of its wars; and the human, financial, and moral costs to the nation, its allies, and its enemies. Nester explores the violent conflicts of the United States--on land, at sea, and in the air--with meticulous scholarship, thought-provoking analysis, and vivid prose.

Carrier Strike

A Photo History of Aircraft Carriers in World War II

By *Donald Nijboer*

Among many other developments, World War II saw naval warfare shift from the battleship to the aircraft carrier, which remains one of the iconic weapons of the war and the core of modern battle fleets. Developed in the 1920s and 1930s, the aircraft carrier came into its own in World War II and featured prominently in numerous battles, including the Coral Sea, Midway, Guadalcanal, and Leyte Gulf. Later in the war, with many of its own carriers destroyed and its carrier-borne air force crippled, the Japanese relied on kamikazes to replace its aerial strike force and to attack the United States' carrier force, and the United States used its carriers to attack the Japanese homeland.

Knights of Freedom

With the Hell on Wheels Armored Division in World War II, A Story in Photos

By Lt. Col. Frederick C. Brems (RET), Fred G. Brems

Fred Brems was drafted in 1941, six months before Pearl Harbor. He spent all of World War II as a tankerman, serving in the European Theater in the U.S. Army's most celebrated division, the 2nd Armored Division, known as "Hell on Wheels."

One of the most renowned units in American military history, the 2nd served in North Africa, Sicily, and Europe and fought in celebrated engagements including Normandy, the Battle of the Bulge, and the Rhine campaign.

Brems, who rose up the ranks to command a platoon and then a company of Sherman tanks, photographed it all.

Through over 600 photos, many never published, supplemented by firsthand accounts from Brems, *Knights of Freedom* follows the 2nd Armored through some of the toughest fighting of World War II.

It is a visual feast depicting American tank combat as it has never been seen before.

Inside the French Foreign Legion

Adventures with the World's Most Famous Fighting Force

By *N. J. Valldejuli*

Among the world's elite fighting units, the French Foreign Legion remains one of the most unique and most mysterious.

Open to volunteers from around the world (men from some 140 countries have filled its ranks), the Legion boasts an illustrious and exciting military history stretching from Europe to Africa and Latin America, from Vietnam and Algeria to Afghanistan; features a notoriously difficult selection and training process, accepting approximately 2 percent of applicants; and has traditionally required soldiers to enlist under assumed names.

Soldiers swear allegiance not to France, but to the Legion, which has been romanticized in literature, song, and action movies as a place for men to prove their mettle or start their lives over.

In this colorful, highly readable book, a blend of firsthand experience and interviews with former legionnaires, N. J. Valldejuli gives an insider's perspective on what it means-and what it takes-to be a legionnaire.

The Slow Road Cookbook

Camp Cooking for Family Adventures

By Kirianna Poole

Mums only want the best for their families. But Kirianna Poole didn't find that in a big house in the middle of suburbia. Instead, she's spent five years travelling with her husband and three kids in their vintage Kombi. Life travels slowly in an old campervan, and for Kirianna, that means lots of time to dream up simple, hearty food that's perfect for cooking while camping. Schooled in her dad's restaurants and inspired by a slow-paced life, she knows that good food is the foundation of awesome family adventures. From the small burner in her van or a campfire at camp, Kirianna's simple, delicious, and wholesome recipes are perfect for families who want to eat better outdoors. Forget two-minute noodles; *The Slow Road Cookbook* is filled with the meals she grew up with in a Māori family in New Zealand, flavours she's savoured around the world, and camping classics born in the Aussie bush.

Crochet Impkins

Over a million possible combinations! Yes, really!

By Megan Lapp

Enter the world of the reclusive yet mischievous Impkins! I'm sure you have seen them out of the corner of your eye from time to time, racing from hiding place to nook or cranny-odd little creatures of stitch and stuffing, of endless variety in form and manner. In these pages, you will not find a taxonomy of their features or a list of the names by which you might call them, you will find guidance on something far more important-the techniques and methods by which you might craft one of these little stitchlings of your very own. It is a wonderful thing, I assure you, to bring an Impkin to life with hook and yarn, and herein you will find the detailed instructions necessary to craft one, with an endless array of options for ears, antennae, hats, wings, tails, scales, horns, hairstyles, clothing, and accessories. Each Impkin is unique, and only you can listen to find out what yours longs to be.

A Guided Discovery of Gardening

Knowledge, Creativity & Joy Unearthed

By Julia Atkinson-Dunn

For some, gardening is a mysterious activity involving muck, unfathomable know-how and physical labour. To others, it is their gateway to creativity, well-being, and magic. Julia Atkinson-Dunn knows what it is to stand on both sides of this fence and has channelled her discovery of gardening into a book to aid and inspire others in their own. *A Guided Discovery of Gardening* is a comprehensive partner in creating a garden, arranged to sweep beginner and progressing gardeners through informative basics to fascinating insights laid bare through her casual, friendly, and often personal writing. From introductions to plant types and taking cuttings to valuable tips for home buyers and the curation of seasonally responsive planting. Particularly relevant to temperate regions around the world, rich doses of handy knowledge are intermingled with reflective essays and visual visits to some of her favourite New Zealand gardens, including her own.

THE Elsa Beskow PETER AND LOTTA COLLECTION

The Elsa Beskow Peter and Lotta Collection

By Elsa Beskow

A beautiful gift edition of four classic stories from Elsa Beskow's cherished Peter and Lotta series, also starring Aunt Green, Aunt Brown, Aunt Lavender, and Uncle Blue.

The picture books of Swedish author-illustrator Elsa Beskow (1874-1953) have been beloved by adults and children alike for more than 100 years.

Her nostalgic picture books are full of gentle humour and charm. *The Elsa Beskow Peter and Lotta Collection* combines four picture books: Aunt Green, Aunt Brown and Aunt Lavender; Aunt Brown's Birthday; Peter and Lotta's Adventure; and Uncle Blue's New Boat in a collectable edition.

Through the delightful tales, readers will meet orphans Peter and Lotta and their new family Aunts Green, Brown and Lavender and Uncle Blue, enjoy their adventures and discover an idyllic Sweden of long ago.

Full of whimsy and nostalgia, Beskow's classic stories are brought together for the first time in a gift edition.

Adult collectors will love the faithfully reproduced vintage artwork, unique hand-crafted design, premium-quality paper, gold foil signature and a luxurious cloth spine.

THE CURIOUS FISH

A MINI Elsa Beskow BOOK

The Curious Fish

By Elsa Beskow

When Flash, a very curious little fish, finds himself stuck in a jar in a little boy's bedroom, his aunts and uncles are determined to save him. But how can three fish rescue him from dry land?

This is a whimsical and funny story from the world-renowned Swedish author-illustrator Elsa Beskow. Young children will delight in the fish-eye perspective, quirky characters, and their extraordinary adventure.

This wonderful mini gift edition of *The Curious Fish* reproduces Elsa Beskow's classic illustrations and beloved story in an adorable small format -- ideal for little hands.

Author Bio:

Elsa Beskow (1874-1953) is the most popular children's author-illustrator in Sweden. Often described as Sweden's Beatrix Potter, Elsa Beskow's picture books have been known and loved for over a century. Her charming stories of children and magical folk, accompanied by her signature illustrations, are known and cherished the world over.

Wee Granny's Magic Bag

By Elizabeth McKay, Maria Bogade

There's something very special about Wee Granny's tartan bag. Each time she reaches inside, she pulls out a big surprise!

Emily and Harry love spending time with Wee Granny. Extraordinary things always happen when she brings her tartan bag.

Wee Granny and the children are having fun in the park when Mum calls to ask if they'll bake some cakes for the school fair.

Wee Granny couldn't possibly have anything in her bag to help with that? or could she?!

This new edition of the hugely popular picture book starring a tartan Mary Poppins offers a wonderful mix of colourful illustrations and an engaging story, with surprises on every page!

Searching for Home

By Chantal Bourgonje

Noa is an excellent finder. But he can't seem to find any friends. Noa the house-sprite likes his home . . . but it doesn't have any friends in it.

Determined to change that, Noa sets out on an adventure to find a home with friends.

Along the way, he meets Bear, Ferret, and Wolf.

Together they face daunting dangers and witness breathtaking beauty, all in search of a new home . . . until they come to realize that maybe the real home is the friendships they made along the way.

The timeless message and whimsical art of *Searching for Home* make this the perfect gift book for folktale enthusiasts and fairy tale lovers.

Young readers will resonate with Noa's hunt for true friendship and might just be inspired to go on an adventure or two of their own. Oftentimes, rich friendships are waiting just around the corner.
