TRACY - 50 Years, 50 Stories

By Derek Pugh, Richard Creswick

Cyclone Tracy demolished Darwin, capital of the Northern Territory when it struck during the night of Christmas Eve and Christmas Morning, 1974.

Over almost ten hours the small, intense, but slow-moving weather system left a swathe of destruction across the entire town.

Few buildings escaped.

Sixty-six people died, many of them on vessels which put to sea, while many hundreds were injured.

The destruction of essential services made a reduction in the population of about 40,000 imperative and what followed was the greatest peacetime evacuation of an Australian community with nearly 10,000 leaving by road and more than 20,000 evacuated by air.

Every survivor has a story and just over 50 of them have responded to the invitation to tell theirs, some for the first time, in their own words.

The Year the Record Business Fell Apart

By Eamonn Forde

An account of the fall of the traditional record business around the turn of the millennium. This is the story of a year in which the record business appeared to be firing on all cylinders, when commercially the CD was in its imperial period, bringing in staggering sums of money for the global record business. The good times - and they were phenomenal times, both culturally and financially - looked like they would never end for record labels. Yet by December 1999, a bomb had been squarely set under their core business. All was to change with the arrival of digital. This is the true story and not simply the oft-repeated tale of an industry complacent and caught napping.

Mothers of Invention

The Feminist Roots of Contemporary Art

By Eleanor Heartney, Helaine Posner

Offering a radical rewriting of the history of contemporary art from a feminist perspective, four distinguished authors explore the lineages of performance, abstraction, craft, and ecofeminism in ways that reveal the debt these important genres owe to the work of pioneering women artists. Tracing these influences over time, *Mothers of Invention* underscores the enormous impact of feminist ideas on the work of contemporary artists of all genders. The painters, sculptors and performance artists featured here have shaped ideas now dominating the art world: the vulnerability of the environment, the rise of activist art, the challenge to the reign of high technology (including digital culture), and the development of a new language of abstraction.

Beginning with the heartfelt eulogies of his friends and the creation of contemporary portraits of the Nuremberg master, Durers person, his likenesses, and his art have been celebrated for over five hundred years. Our contemporary Durer is the subject of intense scholarly discussions on the one hand and of social and commercial popularization on the other hand.

Explore the Bavarian and Bohemian origins followed by an examination of the many significant ways that the modern perception of lager styles has been shaped by a myriad of techniques used to produce them. Many of the traditional methods once employed in the production of lager beer can be used today by the savvy brewer to create unique and delicious lager beers.

The Inevitable Hour

From Kokoda to Kure (Volume 6. of "The Doctors at War" Series)

By Robert Likeman

The Inevitable Hour is the sixth and final volume of the "Australian Doctors at War" series, covering the period from January 1943 to the disbanding of the Second Australian Imperial Force in April 1947. Even after, the Japanese had been driven from Papua and New Guinea, they still retained most of the archipelago. The threat to Australia was great, and despite being a then small nation, the country mobilised quickly to disrupt Japanese holdings in Madang, Wewak and Wau. Heroic and heavy fighting ensued. Overcoming the constant influx of wounded men needing treatment, suffering themselves from afflictions such as hepatitis, dysentery, and depression, aggravated by extreme and tropical climates, Australia's medical officers were under considerable pressure, during the war and in the monumental demobilisation of the 2nd AIF that followed Japanese defeat.

The Messerschmitt BF 110 Story

By Jan Forsgren

A highly capable twin-engine destroyer, fighter-bomber, and night fighter, the Messerschmitt Bf 110 (unofficially the Me 110) was, in Hermann Goering's estimation, the pick of the Luftwaffe's offensive fighters. Drawing on the personal recollections of pilots and aircrew, as well as the individual histories of principal units and non-Luftwaffe operators, 'The Messerschmitt Bf 110 Story' charts the aircraft's operational service in Poland, the Battle of Britain, North Africa, and the Eastern Front. It offers deep technical analysis on the aircraft's design and performance alongside competitors, such as the Focke-Wulf Fw 57 and Henschel Hs 124, and opponents, like the French Potez 630/631 series and Polish PZL.38. The few Bf 110s that have survived in preservation are also explored in this comprehensive operational and technical account of the Luftwaffe's famous Zerstoerer.

The Silence

By Gillian Clarke

The poems in Gillian Clarke's The Silence begin during lockdown, to whose silences Clarke listens so attentively that other voices emerge. As the book progresses, that silence deepens, in the poems about her mother and childhood.

Author & Illustrator Bio:

Judith Barker is an English teacher and when she is not writing children's stories or plays, she teaches music therapy and meditation. While researching a masters in phonology, Judith began to use visual language in stories, by colouring the different phonemes, so that children could make sense of various spelling patterns.

As a child, Chelsea Young was constantly in trouble for drawing all over her books or sketching things on random pieces of paper during school time. Illustration has always been her passion and Chelsea's more recent work has involved artworks relating to Dungeons and Dragons, inventing characters and campaigns in collaboration with like-minded friends. Chelsea brings a fresh style to children's book illustration.

When you tell me you love me, I'm over the moon. When you like what I do, I can reach for the stars.

This heartwarming and vibrantly illustrated story is a love letter from a child, written almost entirely in idioms, to someone who means the world to them.

An idiom is a phrase whose individual words have little or no logical link to its actual accepted meaning.

The English language is rich in idioms, and it can be very difficult for children to wrap their heads around them.

This book is an extremely engaging and memorable way for children to learn all about idioms and some of the more common examples.

Australia's Endangered Bush Creatures

By Myke Mollard

Australia's wild creatures are facing a fast-changing environment that has humankind's fingerprint all over it and hundreds are in danger of complete extinction. We can't save what we don't know or understand: awareness is paramount to helping these endangered creatures survive into the lifetimes of future generations. Myke Mollard's signature illustrations and engaging text bring kids up close and personal with 134 of Australia's most endangered creatures, highlighting both the common and uncommon threats to each species and revealing the fragile balance existing in nature and how our human impact is collapsing ecosystems and unbalancing the natural world. While some of these creatures may be iconic and well-studied, many of them are less known: all have their plight, beauty and character delicately presented in this important new book.

You'll recognise the rainbow flags of Pride Month, but what about the Labrys, the Lambda or the Lavender Rhino? This beautifully illustrated guide takes you on a journey through everything from the green carnations of Oscar Wilde and the violets of Sappho to the black rings of asexuality and the reclaimed pink triangles of persecution.

ACCIDENTAL HISTORIES SERIES:

Halstead Press presents Paul Ashton’s series of short texts designed to integrate with the Australian Curriculum for Humanities and Social Sciences and English, each focussed on the role that accident and serendipity play in the past and making history. Each short story provides an opportunity for students to engage with history while improving their core language, research, and critical thinking skills. They allow for students to understand how that history is not just something that can be found in textbooks, but rather that it is something which is constantly being made around them, and that they are creating their own histories every day. Books are staple bound.
