### The Passion for Aussie-Built Cars

By Steve Reid

**Key Sales Points:**

- \* New title in the popular Passion for... series.
- \* Highly illustrated, features 50 vehicles that have been lovingly restored.
- \* Only models or variants available in Australia or NZ are included.

**Publicity:**

- \* Pre-Xmas press releases to all Auto publications.
- \* Promotional material available on request.

The motor industry in Australia is more diverse than many of us realise. Even the British Motor Corporation (BMC) had a brief crack at breaking into the Aussie market.

This book looks at 50-odd individual cars that have been carefully restored and maintained here in Australia, covering a wide range of types and models.

They are not all purely 100% Australian born, but they are all models or variations that were only originally available in the Aussie and New Zealand markets. Sadly, the Australian motor industry is no more, with no cars being assembled in any shape or form.

This book takes us back in time to when cars and commercial vehicles were being successfully produced in Australia - and sometimes assembled in New Zealand.

### Racing Humpy Holdens

The 48-215's Golden Decade and Legacy With insights from Spencer Martin, Barry Seton and Others

By Joel Wakely

**Key Sales Points:**

- \* Intimate and passionate profile of arguably Australia's most important saloon racing car.
- \* Releasing to coincide with the launch of 3 replica racing Humpies, including his.
- \* Releasing to coincide with an ABC documentary on the replicas and 48-215 racing.

Joel introduces us to the 48-215, the Humpy, and describes how this modest car, designed for a particular time and place, burst the boundaries of its expectations.

He tells the tale of how it became a much-loved road car, for a decade a fearsomely competitive racing car, and ultimately a definitive model Holden that helped define Australian culture and history.

There is a touch of the miraculous about this story: a simple car that broke its boundaries to define a motoring era, and a bunch of mates that built a racing car on a shoestring but through hard work, skill and sheer nerve still reached the pinnacle of their sport.

## Heroes of Black Summer

By Craig Sheather, Kylie Miller

It was an Australian summer like no other. Record-breaking temperatures and years of severe drought fuelled a series of bushfires that burnt across the country. The major fires peaked during December 2019 and January 2020 and East Gippsland was hit hard. Throughout Victoria, people started 'paying it forward' and doing what they could to help others in need. And many heroes emerged. Heroes of Black Summer is a brand-new picture book illustrating some of the heroic, brave and kind actions of Australian people during the 2019-20 bushfire season. Each mini story captures a real-life experience of the harrowing events from individuals and families living in the East Gippsland region. The book provides fire-affected communities with a tool to manage stress, anxiety, and depression to support healing and recovery, and is also a great resource to actively engage with the community to gather and share their stories.
