**Author Bio:**  
 Authors Craig Lewes and Cathy Savage are long-term travel writers and photographers, mostly writing about Australian bush travel. On their almost continuous wanderings throughout the backblocks the pair have, on the odd occasion, found themselves forced to visit many a bush pub (all in the name of research of course). This book is the result of those endeavours. Craig and Cathy created the Boiling Billy imprint in 1996 and are based on a small farm in High Country NSW. For the third edition, they have had the assistance of authors and photographers Louise Denton, Erin Jordan, and Simon Punch.

# ROAD TRIPS AUSTRALIA

Backroads and Byways

DON FUCHS

## Road Trips Australia

Backroads and Byways

NEW

By Don Fuchs

### Key Sales Points:

- \* New title from veteran journalist and author Don Fuchs.
- \* The distillation of 25 years exploring the back roads and lesser-known routes of Australia.
- \* Most routes suitable for any reasonably robust vehicle.

### Publicity:

- \* Review copies to all motoring and 4WD organisations, magazines, and other media.
- \* Circulars to Australian driving and 4WD clubs.

Australia is the ideal country for adventurous road trips. A gigantic network of roads, many unpaved or back roads, runs through the almost endless expanse. Fascinating national parks relate to country towns; long stretches of coastline, vast forests and large tracts of the outback are accessible. All you need is a sturdy (SUV or 4WD) vehicle, camping gear, navigation skills and a good dose of common sense. And time, of course. There is, however, no need to always venture to the remotest parts of Australia to have a good time and make discoveries. Some of the road trips suggested in this book find their stage in the more civilised and densely populated parts of the continent.

Sometimes the unknown and fascinating is just around the corner. No matter where you venture, there is no better way to shake off the hectic lifestyle of our cities and everyday life in suburbia than on an adventurous trip down the roads less travelled

### Author Bio:

German-born photojournalist Don Fuchs worked for Germany's biggest travel magazine and then spent five years as one of the editors of a mountaineering magazine. Since 1995 he has made Australia his main subject and has travelled the continent extensively. His stories and photographs appear regularly in European, Australian, New Zealand and American magazines such as R.M Williams Outback and Australian Geographic. He is the author and/or photographer of more than ten books, amongst them a book on Australian islands, The Ghan, Australian National Parks, and a trekking guide. Passionate about the outdoors, he never shies away from physically demanding assignments. Don lives in Sydney.

## Racing Humpy Holdens

The 48-215's Golden Decade and Legacy With insights from Spencer Martin, Barry Seton and Others

By Joel Wakely

### Key Sales Points:

- \* Intimate and passionate profile of arguably Australia's most important saloon racing car.
- \* Releasing to coincide with the launch of 3 replica racing Humpies, including his.
- \* Releasing to coincide with an ABC documentary on the replicas and 48-215 racing.

Joel introduces us to the 48-215, the Humpy, and describes how this modest car, designed for a particular time and place, burst the boundaries of its expectations.

He tells the tale of how it became a much-loved road car, for a decade a fearsomely competitive racing car, and ultimately a definitive model Holden that helped define Australian culture and history.

There is a touch of the miraculous about this story: a simple car that broke its boundaries to define a motoring era, and a bunch of mates that built a racing car on a shoestring but through hard work, skill and sheer nerve still reached the pinnacle of their sport.

## The Passion for Aussie-Built Cars

By Steve Reid

NEW

### Key Sales Points:

- \* New title in the popular Passion for... series.
- \* Highly illustrated, features 50 vehicles that have been lovingly restored.
- \* Only models or variants available in Australia or NZ are included.

### Publicity:

- \* Pre-Xmas press releases to all Auto publications.
- \* Promotional material available on request.

The motor industry in Australia is more diverse than many of us realise. Even the British Motor Corporation (BMC) had a brief crack at breaking into the Aussie market. This book looks at 50-odd individual cars that have been carefully restored and maintained here in Australia, covering a wide range of types and models.

They are not all purely 100% Australian born, but they are all models or variations that were only originally available in the Aussie and New Zealand markets. Sadly, the Australian motor industry is no more, with no cars being assembled in any shape or form.

This book takes us back in time to when cars and commercial vehicles were being successfully produced in Australia - and sometimes assembled in New Zealand.

## Abandoned Australia

By *Shane Thoms*

Barren red deserts dotted with post-colonial ghost towns, dilapidated inner city factories, discarded country homesteads and a succession of dormant, soot-filled power stations are just a handful of the desolate, yet visually rich narratives that form part of the abandoned Australia landscape. Digging beneath the sun-baked soil, Shane Thoms uncovers the modern ruins scattered over this arid continent and reveals a series of beautifully broken abodes hiding in the crevices of the Great Southern Land. Whispering of both long-gone happy family moments and human darkness, of working lives and the everyday pursuits of living, these atmospheric scenes allow us to reconstruct the stories of the past. Prompting conversations about a growing, diverse country with a complicated history, these abandoned places both connect as well as contrast the past and the present and chronicle the hidden remnants of the evolving Australian story.

## An Australian Birding Year

By R. Bruce Richardson

A highly personal account of a phenomenal, once-in-a-lifetime adventure that saw Bruce and his wife, Lynn, embark on a year of travel and birding across the entire continent in a camper van. Their aim was to see Australia, but also to keep a list of the birds that they saw together. That list began with two Gang-gang Cockatoos flying over their son's yard in Torquay, Victoria and ended a year later watching a lovely little Speckled Warbler on a chilly morning back in Victoria with 638 other species seen in between. Kenn Kaufman said, "The story is superb, and the descriptions of birds, places and people are all original and engaging, and I love the asides and the wise and imaginative comments that Bruce works in on just about every page."

Myke Mollard's signature illustrations and engaging text bring kids up close and personal with hundreds of the creatures found on Australia's Great Barrier Reef: corals, fish including sharks, turtles and other marine reptiles, whales and dolphins, birds, molluscs, crustaceans, even the animals found on the reef's 900-odd islands. The creatures are not only beautifully drawn and coloured, but the accompanying text vividly describes their lifestyles and habits. The wonderment of these stunning animals, delivered in an engaging cinematic punch, will excite the imaginations of children for life and fully engage any adult with a love of Australia's wildlife.

The book highlights the endangered, sometimes the extinct and the rare beauty of Australia and its islands and territories. Fully indexed, this book invites and engages kids (and kid-adults) of all ages to find, discover and learn all the animal names and compare their different types. Originally assisted by leading biologists, author Myke has ensured the illustrations are anatomically correct as well as vibrant and enchanting. ## Australia's Dangerous Bush Creatures

By Myke Mollard

Myke Mollard's signature illustrations and engaging text bring kids up close and personal with 47 of Australia's most deadly and dangerous creatures, helping them to discover the true nature of these wonderful animals. As fearsome as many of them sound, what they will come to realise on reading this book is that these creatures live mostly peacefully among us. Their deadly venoms, scary teeth and animal behaviour are normally just used as warning signs or, rarely, in defence. In reading, children will come to understand these creatures better, gain courage and form a proper respect for them. The beauty, majesty, and wonderment of these stunning creatures, delivered in an engaging cinematic punch, will excite the imaginations of children for life.

## Australia's Endangered Bush Creatures

By Myke Mollard

Australia's wild creatures are facing a fast-changing environment that has humankind's fingerprint all over it and hundreds are in danger of complete extinction. We can't save what we don't know or understand: awareness is paramount to helping these endangered creatures survive into the lifetimes of future generations. Myke Mollard's signature illustrations and engaging text bring kids up close and personal with 134 of Australia's most endangered creatures, highlighting both the common and uncommon threats to each species and revealing the fragile balance existing in nature and how our human impact is collapsing ecosystems and unbalancing the natural world. While some of these creatures may be iconic and well-studied, many of them are less known: all have their plight, beauty and character delicately presented in this important new book.

## Heroes of Black Summer

By Craig Sheather, Kylie Miller

It was an Australian summer like no other. Record-breaking temperatures and years of severe drought fuelled a series of bushfires that burnt across the country. The major fires peaked during December 2019 and January 2020 and East Gippsland was hit hard. Throughout Victoria, people started 'paying it forward' and doing what they could to help others in need. And many heroes emerged. Heroes of Black Summer is a brand-new picture book illustrating some of the heroic, brave and kind actions of Australian people during the 2019-20 bushfire season. Each mini story captures a real-life experience of the harrowing events from individuals and families living in the East Gippsland region. The book provides fire-affected communities with a tool to manage stress, anxiety, and depression to support healing and recovery, and is also a great resource to actively engage with the community to gather and share their stories.
