Abandoned Australia

By Shane Thoms

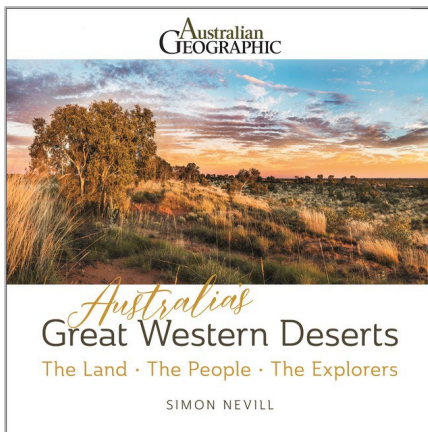

Barren red deserts dotted with post-colonial ghost towns, dilapidated inner city factories, discarded country homesteads and a succession of dormant, soot-filled power stations are just a handful of the desolate, yet visually rich narratives that form part of the abandoned Australia landscape. Digging beneath the sun-baked soil, Shane Thoms uncovers the modern ruins scattered over this arid continent and reveals a series of beautifully broken abodes hiding in the crevices of the Great Southern Land.

Abandoned Perth: Memories and Photos of the Lost and Found

By Delphine Jamet

In this beautifully photographed book, the author has captured abandoned places in emotive form: places as dark as time; history forgotten in the folds of the subconscious mind; beauty in decay, a presentation of life open to our personal interpretations. Atmospheric scenes unfold before the light of torches, with glass crunching underfoot, complementing the unremitting sound of dripping water. Creative wall art decorations attract attention, bordering the natural and unnatural worlds with a broad range of colours and exuding micro-organisms with compelling effects. The author describes urbexing – the pursuit of images of the abandoned and ruined - as a drug, a way of life as powerful as a state of mind. This is her world – this is Perth.

Abandoned Gwalia, Western Australia, and other abandoned towns

By Erin Jordan

Red dirt, intense heat, and hordes of flies; the Australian Outback is one of the harshest environments in the world. But this did not stop early settlers from attempting to make a living in the desert in the search for gold and the chance at a better life. Now the mining boom has created specialised camps with fly-in, fly-out workers, leaving once-booming settlements to disappear off the map forever. In this beautifully photographed book, author and award-winning photographer Erin Jordan captures these unique places that have been abandoned and left behind. Erin travels through some of the most remote areas in Australia, uncovering forgotten towns and exploring the stories left behind. Each photo gives us a glimpse into what life was like living in some of the toughest and most remote places in Australia.

Author Bio:

Michael Morcombe, a passionate bird enthusiast since high school, transitioned from bird photography to studying birds themselves, recording their behaviours and habitats. His career as a photographer and author flourished with over forty titles, including renowned works like *Birds of Australia*. Encountering challenges in capturing perfect shots, he honed his skills in sketching and painting birds while refining his ideas for an authoritative bird guide. His dedication culminated in the creation of the *Field Guide to Australian Birds*, praised for its ease of use and comprehensive coverage. Morcombe's contributions earned him accolades such as the NSW Royal Zoological Society's Whitley Award and the 1969 C.J. Dennis award.
