Simon Nevill's celebrated Birds of Western Australia is quite simply the most accessible yet effectively comprehensive guide to all the species that are commonly - and even not so commonly - found in the state, covering most sedentary birds and regular migratory birds.

Nearly 500 are illustrated and discussed in some detail, making not just for easy identification, but also absorbing contemplation. Over 350 pages of descriptions are prefaced with a 50-page section on habitats, regions, and the best ways of getting out and finding the wealth of birdlife across Western Australia. Most of the photographs have been taken by the author himself, showing the birds in their natural habitats. Most of the information imparted in this guide also comes from Simon's personal experience over many decades of bird watching in Australia, giving the guide a very personal tone. This second edition incorporates the essential species classification changes of the last few years.

## Jack's Best Day Ever

By Gabrielle Bassett, Annabelle Hale

Jack loves anything that zooms, digs and races. But Jack doesn't like change and he only ever wants to eat peanut butter sandwiches! This heartwarming, hilarious story of friendship explores how it feels to be neurodivergent, and introduces children to the idea that there is no one-size-fits all way to be human. Follow Jack and his friends as they go on an adventure to the zoo!

"At the core of Gabrielle's vivid and beautifully written tale is the blossoming friendship between two children, each with their own unique disability and neurodiversity. Lenny De Vries (Disability & Neurodiversity Program Lead).
